Diversity, Equity, Inclusion and Belonging

As a researcher, a mentor, and a member of the LGBTQ+ community, Mike is dedicated to fighting for diversity, equity, inclusion and belonging. Race, ethnicity, gender, age, religion, language, abilities/disabilities, sexual orientation, gender identity, political affiliation, and socioeconomic status should not be barriers to the STEM community or grounds for discrimination. As such, the Piacentino lab welcomes people and viewpoints from all backgrounds. Only when everyone feels a sense of belonging and support from their community can our scientific and human endeavors reach their peak ingenuity and excellence.

In this lab, WE BELIEVE

SCIENCE
is real

LOVE
is love

BLACK LIVES
matter

FEMINISM

CHICKENS

IMMIGRANTS

Mentoring Philosophy

As a mentor, Mike aims to build a sense of belonging amongst trainees from all backgrounds and experiences, practice clear and direct communication strategies, and help mentees identify their personal and professional goals and how to achieve them. Mike works to communicate clear expectations, engage in active listening, and adopt individualized training plans that leave each mentee with a sense of support and empowerment to ask ambitious questions and tackle challenging research projects.
